**Template Instructions:**

Template Instructions

**Note:** The above templates require that you have either Microsoft Word or Corel Word Perfect on your computer. If you do not have access to either program, see the [FAQ section](#) for instructions on how to save to disk.

1. Select a design from the samples shown.
2. Locate the word processing software you use - (Word or Word Perfect).
3. Click the number of tabs desired - either 5 or 6 to automatically open the template. (Note: Depending upon your Internet browser, you might get a window asking you to save or click to continue. Do not be alarmed. Click to continue.)
4. Enter Your Information - After your template opens, simply click on the fields in the table of contents page (Page 1) to update them. Fields on your tab portrait slide's page (Page 2), which will go into the back of your booklet, will update automatically.
5. Print your documents (each page) on the 8.5" x 11" paper of your choice. Three-hole punch the table of contents sheet (page 1) and place in the back of your binder behind the protective cover sheet. Insert the tab portrait and slide (page 2) in the two page folder at back of binder.
6. You're finished! Close the template and save it you would like to add your work in the future.
7. If you run into any formatting problems, you can always return to the template page and start from a new template.

*If you have any questions, check out our [FAQ page](#).*
